WHO WE ARE

Corona Tableware is a Colombian manufacturer with over 145 years of experience, and part of the multinational Corona Organization. We specialize in the design, manufacturing, and commercialization of high-performance porcelain tableware for the foodservice and hospitality industries.

Our operations span 20 manufacturing plants in Colombia, 3 in the United States, 3 in Central America, and 3 in Mexico, supported by a global sourcing office in China. With a production capacity of over 5 million pieces per month, Corona is one of the world's leading tableware manufacturers, exporting to the United States, Canada, Europe, Latin America, and the Caribbean.

Since 1881, we have been committed to delivering durability, consistency, and design excellence, while contributing to the social and economic development of the communities where we operate.

Through a strategic partnership with Spain-based Cementos Molins, and via Empresa Colombiana de Cementos and its ALION cement brand, the company has built a solid cement production and commercialization platform in Colombia, generating over 9,000 jobs and exporting to key global markets across the Americas and Europe.

About Corona Tableware

Corona has been producing high-quality ceramic tableware since 1881.

It is one of the largest tableware companies in the world, producing 5 million units per month.

The main markets we export to are the United States, Europe, Brazil, Peru, Argentina, Mexico, and the Caribbean.

We deliver products of the highest quality, innovation, and design standards to our consumers.

We are always committed to contributing to the economic and social development of the communities where we operate.

Corona makes sustained efforts to reduce its environmental impact and promote sustainable development.

IMPORTANT INFORMATION AND COMPETITIVE ADVANTAGES

40,000-square-meter
manufacturing plant

Production capacity: 5 million
tableware pieces per month

Latest-generation technology

In-house decoration plant

Product availability and guarantee

Durability

OUR PRODUCTS

Vitrified porcelain, fired at high temperatures, resulting in a dense, non-porous body that delivers superior strength, hygiene, and durability. Ideal for high-traffic foodservice environments.

CERTIFICATIONS:

FDA and Prop 65 approved

BASC Certification: Business Alliance for Secure Commerce

ISO 9001:2000: Quality management standard

ISO 14001: Environmental management and sustainability

Vertical Integration: FROM THE MINE TO THE TABLE

Full control of the value chain, from raw material extraction to the finished product.

At Corona, we operate 23 mines and have a mineral processing capacity of 1.5 million tons per year across 8 strategically located centers and plants throughout the country.

We offer greater traceability and consistent quality, ensuring durable, safe tableware with beautiful designs.

WHY CHOOSE CORONA?

Our capabilities make us a
reliable, long-term partner for the foodservice industry.

Brand Support: A Colombian company with more than 145 years of experience.

Designed for the food service industry: Solutions developed for high-traffic use.

Expert consulting: Personalized and ongoing support from professionals with expertise in the gastronomy industry.

Excellent cost-benefit balance: Trend-forward collections with optimal performance, offered at a competitive price.

Customized solutions:

- **Branded tableware** with logos and decorations selected by the client.
- **1200° Corona:** Custom-made tableware shapes and colors.

Reliable Restocking: Consistent availability and agile delivery.

Distribution network with strategic partners in the food service industry.

PORCELAIN

Stackable

Certified for foodservice use.

Complies with lead and cadmium standards.

Restocking Service

CORONA TABLEWARE

PRESENT IN DIFFERENT
GASTRONOMIES
AROUND THE WORLD

Working hand in hand with our customers is our greatest inspiration. Each cuisine has its own way of being served and enjoyed.

At Corona Tableware, we understand these differences and are proud to be part of every table, because the best moments are lived around it.

An abstract composition featuring overlapping circles and textures. A large white circle is at the top, a dark blue circle is in the middle, and a light blue circle is at the bottom. The background is a deep blue with a textured, fabric-like appearance. The title 'IRIS & ZAFIR' is centered in white, with 'IRIS &' in a smaller, sans-serif font and 'ZAFIR' in a larger, stylized serif font.

IRIS & ZAFIR

Iris featuring delicate iridescent tones, *a pearlescent surface, and a subtle radial pattern*, designed for spaces where gastronomy is driven by *detail, aesthetics, and memorable presentation*.

Zafir reveals unique nuances in every piece, creating *deep surfaces that evoke movement and texture*, drawing the eye toward the center and framing each culinary creation as a unique work of art.

NEW COLLECTION

2026

Origen

The background of the page is a close-up photograph of several ceramic pieces. In the center is a large, wide, shallow bowl with a thick, textured, light brown rim and a vibrant green glaze on the interior. To its left is a smaller, rounded cup with a similar green glaze and some darker, earthy tones. In the foreground, the rim of another green-glazed bowl is visible. The lighting is soft, highlighting the textures of the ceramic.

ARRECIFE COLLECTION

1200
corona

An expression of timeless elegance **inspired by the delicate beauty of coral reefs**. Drawing from the rich textures of these natural ecosystems, the collection delivers a refined sensory experience. Its neutral palette—beige, off-white, and caramel—creates a soft, sophisticated aesthetic that reflects the understated elegance of the reefs.

BAHÍA

An ode to the majesty and serenity of the ocean. Inspired by the constant movement of water, this collection captures the essence of marine life and the dynamic energy found in every wave.

Soft tones of coral, terracotta, and deep blue blend harmoniously with fluid, organic forms, creating a calming and elegant color palette that brings a sense of balance to the tabletop.

Each piece invites diners to experience the refined calm and timeless elegance inspired by the sea.

INK

The result of the perfect combination of *sophistication and artisan expertise*.
Its irregular and disruptive band at the edge not only enhances the food,
but elevates the culinary experience to a new level.

A collection of ceramic dishes, including bowls, plates, and a cup, arranged on a light-colored wooden surface. The dishes are in various shades of blue and brown, with some showing a reactive glaze effect. The background is a neutral, light gray.

COSMOS NEW COLORS

The Cosmos line expands with three new reactive glaze colors.

AGED BLUE

These products are made with a glazing method which results in variation in colour and makes each piece unique

ARTISAN

A close-up photograph of a chef's hands using a blue-handled blowtorch to sear a piece of dark, glazed meat. The meat is resting on a light-colored ceramic dish with a brown rim. The chef is wearing a white chef's coat. The background is blurred, showing a kitchen setting. The word "ARTISAN" is overlaid in large, white, serif capital letters on the left side of the image.

Inspired by the collective memory of our artisans, Artisan reflects a return to our roots through expressive colors and innovative shapes, designed to enrich the **dining experience.**

YOUR BRAND YOUR TABLE YOUR SIGNATURE

At Corona, we turn dinnerware into a powerful brand statement. Through customized design solutions, we integrate your visual identity into every piece, delivering distinctive tabletop experiences that combine style, authenticity, and foodservice-grade performance.

HIGH-TEMPERATURE FIRING

(Decoration fused under the glaze)

Fired at approximately 2138°F (1170°C), this decal process permanently fuses the decoration beneath the glaze, protecting it from wear, scratches, and commercial detergents. The result is exceptional resistance to heavy use, stacking, and contact with flatware—ideal for demanding foodservice environments. This process is not recommended for American paste bodies or pieces with colored glazes.

CUISINES

A rustic wooden table is set with several Italian dishes. In the foreground, a large white plate holds a whole pizza topped with tomato sauce, melted cheese, and fresh basil leaves. To its right, a white bowl is filled with spaghetti topped with a meat sauce. Behind the pizza, a white plate contains risotto with mushrooms and herbs. To the right of the risotto, a white plate holds a portion of lasagna topped with melted cheese and a fresh basil leaf. In the background, a glass of red wine and a small glass bottle of olive oil are visible. A white ceramic bowl with a handle contains a small amount of olive oil. A folded beige napkin with a silver fork and knife is placed on the table. In the bottom right corner, a white bowl contains gnocchi.

Italian Cuisine

Tableware pieces with classic shapes and contemporary touches that elevate the dining experience. Warm-toned pieces complement dishes such as pizzas, pastas, lasagnas, and other traditional recipes.

How do we contribute at Corona Tableware to the planet's environmental sustainability?

SDGs

(Sustainable Development Goals)

We contribute through our four focus areas and environmental initiatives:

Climate Action / Decarbonization

Climate Action

Affordable and clean energy

Water Management and Biodiversity Conservation

Clean water and sanitation

Life on land

Circular Economy
Materials, Products, and Waste

Responsible consumption
and production

Environmental Compliance

ISO 14001

1 CLIMATE ACTION DECARBONIZATION

How Are We Doing?

Forest conservation project in southern Colombia.

Planted trees

Native trees planted over the past seven years, contributing to the annual capture of 18,6 tons of CO₂.

Technology investment

Over USD \$9 million invested between 2024 - 2025, contributing to a 41% reduction in CO₂ emissions and positioning us among the companies with the lowest emissions, thanks to the implementation of new technologies.

Energy Transition

100% renewable-certified electricity for our operations starting January 2025.

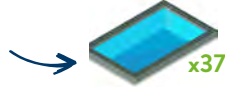

Carbon Offset

2,263 tons of CO₂, representing 10% of our carbon footprint offset in 2024, equivalent to the annual carbon capture of 119,735 cedar trees.

2 Water Management and Biodiversity Conservation

Water Recirculation

Over the past 10 years, the level of recirculated water increased from **48%** to **83%**, equivalent to 37 Olympic-sized swimming pools.

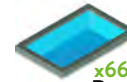

44.721 m³ of drinking water saved in 2024 compared to 2014 consumption, equivalent to the annual water use of

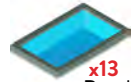

204 families
in one year

Water Distribution

Our water consumption in 2024 was equivalent to 79 Olympic-sized swimming pools, of which only 13 were potable water.

x66
Reused water

x13
Potable water

How are we doing it?

We implement water efficiency initiatives across our production processes.

We collect rainwater from an area of 3,575 m².

45% reduction in potable water consumption

for the production of a 4-piece dinnerware set — from 28 liters in 2014 to just 15 liters in 2024.

3 Circular ECONOMY

We contributed to the recovery of solid waste through partner companies, who transformed 8.400 tons into their production processes in 2024.

Waste Reduction

1.020 tons of solid waste were sent to final disposal in 2024, an **82%** reduction compared to 2014, equivalent to 482 garbage trucks.

Supply Chain

More than 90% of raw materials

used in our dinnerware manufacturing are sourced locally in Colombia, supporting the development of national suppliers.

Packaging Material

80% OF OUR PACKAGING IS FSC certified

(Forest Stewardship Council)

The remaining 20% is recycled cardboard

4 Conmental Compliance

CERTIFICATION

Currently certified under ISO 14001: 2015 in environmental management.

Environmental Protection Award in Colombia (2015) and Ecuador (2016) for the zero-discharge project.

AWARDS RECEIVED

Business Sustainability Recognition in the leader category by MAAV (local environmental authority).

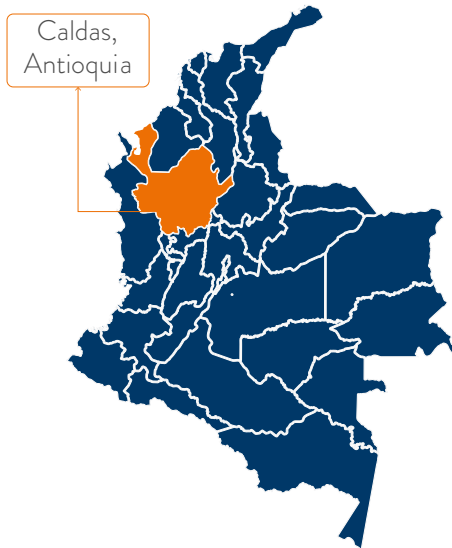

Social Mining Seal Award in Antioquia granted by the Departmental Government – Corona/ Sumicol, 2019..

We are **What we do**

At Corona Tableware, we are committed to the country's development,

striving to improve the quality of life of our employees and the communities within our areas of influence.

For more than 140 years, Corona Tableware has been a fundamental part of the development of the municipality of Caldas, Antioquia, its place of origin. Its social commitment is reflected in job creation and in the promotion of education through the donation of land for La Salle University, a high-quality institution, as well as for the municipality's only private school, ranked among the top 5% in the country. The organization has also contributed to improvements in security, quality of life, and urban growth around our manufacturing facility.

OUR COMPANY AT A GLANCE

We create over  **1,100** JOBS

 **77%**
of our employees are from Caldas

 **53%**
of our human talent are women in leadership positions

SDG's

SUSTAINABLE DEVELOPMENT GOALS addressed through our social initiatives

No poverty

Quality education

Good health and well-being

Decent work and economic growth

WHAT DO WE DO FOR OUR EMPLOYEES AND THE COMMUNITY ?

Donations of ceramic products and mortgage interest rate subsidies to promote decent housing

An annual investment of approximately USD 440K in food services for our employees

Membership in an employee fund to access financial and social services under more favorable conditions

Over USD 1MM invested annually
in additional employee benefits

Over USD 75K invested annually in
health and life insurance

100% of our employees earn above the
current legal minimum wage

MORE THAN 56K 
CERAMIC PIECES DONATED,
benefiting over 20.000 people and
disadvantaged communities.

CORPORATE VOLUNTEERING
MORE THAN 2K
PEOPLE BENEFITED
through volunteering initiatives to
improve educational infrastructure
in areas of influence.

MORE THAN USD 148K
INVESTED ANNUALLY IN
scholarships for basic and higher
education for our employees and
their families

RECOGNITIONS

Great Place to Work Certification

endorsing the positive
experience of our employees
and our commitment to a
trustworthy and well-being
work environment.

Corona
Actualizado Noviembre 2023.

#1 in the Colombian industrial sector.

endorsing the positive
experience of our employees
and our commitment to a
trustworthy and well-being
work environment.

We are What we do

A close-up photograph of a chef with a beard and mustache, wearing a white chef's coat. He is looking down at a white bowl filled with a salad of asparagus, green herbs, and small purple flowers. His hands are resting on a wooden surface, and he is wearing a purple beaded bracelet and a gold ring. The background is blurred, showing a kitchen setting.

DINNERWARE USER GUIDE

Recommendations and user guide

Manual Wash

It's done using three sinks: Dinnerware is submerged in water with soap, then rinsed in regular water. The faucet must be covered to avoid mechanical collisions with the dinnerware.

Manual Process

-Remove food: Remove solid residue from plate. This must be done by hand with gloves or with a plastic spatula.

-Pre-wash: Rinse the pieces in warm water to remove any residue left from the first process. This must be done only with dinnerware and cannot be mixed with any metallic elements

-Detergent wash: Completely submerge the dinnerware in warm water with soap. Soft sponges should be used.

-Rinse: The dinnerware is rinsed with hot water to remove the detergent from the pieces. This process must be done using clean and fresh water.

AUTOMATIC WASH

The washing process is done in a dishwasher which does all the process of rinsing and soaping in different cycles.

Automatic Process

- Remove food: Remove solid residue from plate.

- This must be done by hand with gloves or with a plastic spatula.

- Pre-wash: Rinse the pieces in warm water to remove any residue left from the first process. This must be done only with dinnerware and cannot be mixed with any metallic elements.

- Detergent wash: Machine cycle where the dinnerware is exposed to water and soap at a temperature of 149°F (65°C).

-Rinse: Machine cycle with fresh water at 179°F (82°C) with additives that can be shining or drying agents.

DRYING PROCESS

If dinnerware is in a rotation, it can be left to dry at ambient temperatures. If dinnerware is going to be stored, it should be dried with a cloth to avoid water marks.

THE DETERGENT

Manual Wash

Should be liquid to avoid scratching the dinnerware. It should also be neutral to avoid drying out the skin of the washer and to protect the glaze of the dinnerware.

Mechanical Wash

Should be liquid to avoid scratching the dinnerware. In the rinse cycle, shining, rinsing and drying agent can be used to improve the shine in the dinnerware and to reduce the drying time.

STORAGE

Dinnerware must be stored separately from flatware, drinkware and cutlery.

Stack according to shapes and sizes.

When dinnerware is stored in metallic divisions, it is recommended to protect the pieces with a cloth to avoid contact between the metal and the porcelain. Do not store wet or moist dinnerware.

RECOMMENDATIONS FOR THE REMOVAL OF DINNERWARE STAINS.

-Rust and metal scratches.

Produced by inappropriate washing, friction between pieces, contact with metallic utensils or the use of soft metal flatware.

To prepare the solution that helps soften stains, use one tablespoon of baking soda for every liter of water. Boil the solution and introduce the stained dinnerware for 10 to 20 minutes, depending on the size and visibility of the stains.

This process should be done in a stainless-steel container. Please avoid aluminum containers.

When the dinnerware is removed, rinse well. If some of the stains remain, use an abrasive powder detergent and scrub with a soft sponge.

This last procedure should only be done in white glaze and by no means should be done on decorations.

-Coffee, tea, chocolate or cocoa stain.

These stains occur when the dinnerware is not washed for long periods of time after using.

It is recommended to introduce the stained dinnerware to water with 4% chloride for 20 minutes. Rinse and notice the difference.

KEEP IN MIND

To avoid breakage.

-Separate the dinnerware from flatware, drinkware and other elements.

-Trays must be balanced and never overload.

-Use comfortable and safe footwear.

-Avoid irregular and slippery surfaces.

-Always indicate wet floors or floors that are being cleaned with appropriate wet floor signage.

-Avoid friction between pieces to reduce scratches.

-To stack use these maximums.

- o 15 pieces for plates larger than 8 ½ in
- o 5 pieces for plates smaller than 8 in
- o 3 for mugs and cups.

-Remove all solid residue from plates before cleaning. This must be done by hand or with a plastic spatula, never with metallic elements.

-Avoid leaving coffee or chocolate residues for more than 24 hours.

-Faucets and knobs must be covered to avoid mechanical collisions with the dinnerware.

-Avoid storing pieces that are damp or wet.
