# GLOBAL TABLEWARE COLLECTIVE

Global Tableware Collective (GTC) is a trusted name in the hospitality industry, bringing together a curated portfolio of brands to elevate the tabletop & buffet through collaboration, craftsmanship, and innovation. Our mission is to empower foodservice brands by providing them with a platform to thrive collectively and enable access to our vast resources, expertise, and distribution channels. With showrooms in Chicago, Los Angeles, Miami, New York, and Youngstown, GTC offers a dynamic, in-person experience that connects customers with its evolving portfolio while reinforcing its commitment to service and accessibility across key markets.

At the core of the portfolio is Stölzle Lausitz, a cornerstone brand that reflects GTC's dedication to quality, precision, and design. Alongside it, Global Tableware Collective brings together a distinguished group of partners, including Bonna Premium Porcelain, Mesa Ceramics, Dalebrook, Comas, G. Benedikt, Patra, Narumi, Zieher, and Zepe, each contributing unique expertise and perspective to the tabletop & buffet. Together, these brands form a cohesive yet diverse offering, thoughtfully curated to complement and strengthen the overall portfolio.

# Stölzle Lausitz

## Born in Fire

Stölzle Lausitz has been an award-winning leader in high-performance, lead-free crystal for more than 135 years. Originating in Lusatia, Germany – the center of glassmaking since the Middle Ages – Stölzle provides the hospitality industry with a long-lasting, high-quality product. From elegant, crystalline stems to contemporary metallic finish on glass, Stölzle Lausitz offers a variety of beverageware to suit the commercial foodservice operator.

Nestled in the picturesque Lausitz region of Germany, the town of Weisswasser is home to Stölzle, a distinguished producer of premium machine-made, lead-free crystal. Weisswasser's rich heritage in glassmaking dates back centuries, and Stölzle continues this tradition with its dedication to crafting the finest crystal products. Renowned for their exceptional quality and precision, Stölzle's creations exemplify the excellence of German craftsmanship, blending timeless elegance with cutting-edge technology.

# Q1

HANDMADE

Q1 is the exclusive, mouth-blown collection from Stölzle Lausitz. The glasses are handmade using traditional glassmaking skills and are particularly delicate with a pleasantly lightweight feel in the hand. The drawn stem of the goblets is long and fine, making this collection extremely elegant. The widest part of the wine glasses is set low: this not only gives them an extravagant design, but also offers the wine plenty of room to breathe and develop its aromas when the volume is small. Alternatively, anyone who appreciates the extraordinary design of Q1, but places more value on suitability for everyday use, should choose the glasses from the machine-made Stölzle Quatrophil collection. These glasses have the same, chic and modern design, but are more robust and durable.

# Cocoon

PRESTIGE

Embrace innovation with cocoon-inspired wine glasses, designed to transform your wine's aromatic profile. The unique shape allows the concept of 'aroma development' to appear in completely new facets, and it ensures optimal aeration, enhancing the flavors with every swirl. The longer the wine rests in the Cocoon, the more its flavors evolve. Combining sleek, contemporary design with lightweight construction, a thin stem, and delicate walls, this glass embodies the precision and creativity behind its creation.

# Ultra

CLASSIC

Designed for optimal handling, the Ultra goblets feature intentionally reduced stems, making them easier to clean in dishwashers and carry on a tray due to their low balance point. This thoughtful design also simplifies storage. Despite the shorter stems, the Ultra glasses maintain the generous size of the goblets, ensuring the highest level of functionality and drinking enjoyment.

# Stemmed Water

COLLECTIONS

Elevate dining room service with a Stemmed Water glasses from Stölzle Lausitz. The thin-walled crystal glasses allow any type of water to look particularly refreshing and slim glasses keep the bubbles of carbonated mineral water longer. Conversely, a bulbous glass is suitable for a strong bubbling water to be quickly converted into a medium water.

# Serenity

Serenity pairs white and deep blue to create a quiet, steady presence at the table. Inspired by traditional East Asian ceramics, it reflects an enduring sense of beauty reinterpreted through a modern lens. Classic blue-and-white tones bring stillness, while Serenity Grey offers a soft contrast to create a gentle visual rhythm. Floral motifs are rendered with a contemporary touch, balancing heritage with present-day design. The result is a calm, composed aesthetic that evokes familiar natural moments in a refined dining setting.

# Rydges

Rooted in Narumi's theme of "Respect for Nature," Rydges translates the landscape into refined white bone china. Inspired by earth's formations, each piece reflects strata, ridges, and carved stone over time, including dynamic stripes seen in Antelope Canyon as it is shaped by wind and rain. Subtle reliefs add dimension and texture to the surface. Ideal for chef-driven presentations, Rydges balances organic inspiration with refined simplicity.

Bonna is a new-generation brand from Kar Porcelain, a company with roots going back to 1983. In just over 10 years, Bonna has become Türkiye's top exporter in its category, with a presence in more than 100 countries across six continents. As Türkiye's first and only 100% HoReCa-focused brand, Bonna is built for the needs of hospitality. With a focus on reliable performance, original design, and sustainable production, Bonna supports chefs and operators with tabletop solutions that deliver consistent, standout presentations.

Bonna operates two production facilities in Kocaeli and Bilecik and produces 40 million pieces annually supplying durable, design-forward porcelain to foodservice professionals around the world.

# Lifetime Edge Chip Warranty

Select shapes within the Bonna product portfolio are identified with the "edge chip resistance logo" and are backed by a lifetime warranty.

G.BENEDIKT
1882

For over 140 years, G. Benedikt has been a leader in porcelain manufacturing, recognized as one of the largest producers in the Czech Republic, specializing in durable hotel porcelain. Established in 1882 in Karlovy Vary, the company has built a reputation for high-quality craftsmanship and reliability in the hospitality industry. As part of the G. Benedikt Group—which also includes Lilien Austria and Suisse Langenthal, the company blends rich tradition with innovative practices to create porcelain that stands the test of time. Their commitment to exceptional craftsmanship, sustainability, and customer-focused solutions has set them apart in the industry.

In addition to their standard collections, G. Benedikt offers custom production services, allowing clients to personalize porcelain with unique decorations, including company logos, using techniques such as decals, spraying, and hand painting. All decorations are in-glazed, ensuring lasting beauty and resistance to daily wear. With a legacy of quality and innovation, G. Benedikt continues to be a trusted name in hospitality tabletop solutions, delivering timeless designs and industry-leading durability to restaurants, hotels, and catering professionals worldwide.

# Peak & Slanted Riser

Crafted from high-quality thermoplastic material, the Peak Riser combines durability with innovative design. Its elasticity and rubber-like texture evenly disperses weight ensuring stability, while its non-slip surface adds convenience for self-service buffets. Peak can be laid flat, upright like a pyramid, or interlocked to create varying heights on foodservice displays. On the other hand, Slanted Risers feature an open circular structure with a gentle incline and non-slip coating that brings depth and dimension to any food display. Perfect for showcasing platters or bowls, the slanted design enhances visibility, making it easy for guests to access and admire the offerings.

# Care & Use

## Glassware

- After washing, remove basket and leave to cool and dry
- Never carry glasses in bouquets
- Never use glass to carry or store flatware
- Never let the beer tap come in contact with the glass
- Do not use glassware as an ice scooper
- Use properly sized compartmented glass racks

## Stemware

- Do not handle the stemware when hot
- Use white cotton gloves or 2 cloths for polishing
- Polish the bowl first followed by the stem and then the base
- Do not hold the glass by the stem or the base when polishing the bowl

---

## Bone China (Narumi)

**FOR SAFE USE**

- Please avoid the following actions, as they may cause cracking :
    - Impact
    - Sudden heating or cooling
    - Heating an empty vessel
    - Boiling or heating in water at over 140°F
    - If cracking occurs, please stop using the product and exercise due caution to avoid injury from the damaged parts.
- Please be careful not to burn yourself, as the product gets hot after heated in a microwave oven. Decorated parts especially become hot.
- Please do not tightly seal the product when you cover it with plastic wrap to heat it in a microwave oven.
- Please do not use the product for any other purpose than its intended use.

**MAINTENANCE & CLEANING**

- Please use a pH-neutral cleaning agent and a soft sponge or cloth.
- Tea and other stubborn stains should be removed using a commercially available oxygen bleaching agent in the specified manner.
- Lime scales and metal marks of knives and forks should be removed using a liquid cleanser (which is not rough to the fingertips). However, scratch marks of the knives due to vigorous scrubbing cannot be removed.
- Please remove any stains immediately after use to avoid them from becoming difficult to remove later.
- Please do not use a metal scourer, abrasive nylon scourer or cleanser, as these may lead to scratches on the surface or damage its decoration.
- After washing, the items should be dried thoroughly and stored in a place with low humidity.

**OTHER INSTRUCTIONS**

- Vases or interior items should be placed in a stable position.
- Please be careful not to scrape the surface too hard with a knife, as this will create scars (knife marks) on the surface that cannot be removed.
- Please do not place parts of the bone china without glaze in contact with vinegar for an extended period of time, as this will damage the body.

**STORAGE**

- Preferably store the pieces on safe spaces, either stainless steel or with a shelf mat, to avoid metal marking.
- Keep ceramics, glassware and metals separate.
- Do not store the pieces while wet.
- Do not stack items not designed for it and don't over stack so there's no scratching due to weight.
- Do not stack with products from other suppliers.

## Porcelain & Vitrified (Bonna)

- To protect the glazed surface of the products, stack them one by one without sliding, in a way that they will be stacked on top of each other at the contact points.
- It is recommended that the feet of the products should not come into direct contact with aluminum countertops and shelves. If there are aluminum countertops and shelves, it is advised to cover them with silicone coating.
- All Bonna Porcelain products, except those mentioned, are suitable for microwave use. Gilded, decaled, reactive with metal content, and porcelain with platinum content are not suitable for microwave use.
- Oven dishes, soufflés, and casseroles are suitable for oven use. They are heat-resistant up to a maximum of 428°F.
- When the products removed from the freezer or refrigerator reach room temperature, you can proceed with the heating process. As with all porcelain products, protect our items from sudden and high temperature differences.
- Our patterned, hand-decorated, and white products are suitable for use in the microwave oven.
- Check and ensure the quality of your cutlery set.
- Always wash Metal, Porcelain, and Glass products separately, both manually and in the dishwasher. This will prevent metal particles from sticking to the surface of the porcelain products.
- While washing the surfaces of porcelain products, the use of metal scrubbers or metal tongs is not recommended.
- To remove stubborn residues from the surface of porcelain products, use a scrubbing pad and water. For stuck-on residues, you can clean with rubber scrapers, gloved hands, or a water spray.
- Do not hit the product against any surface to remove residues. Instead, follow the recommended cleaning methods to ensure the longevity and quality of your porcelain product.
- The hardness of your washing water can be very low. Have the manufacturer of your dishwasher check water hardness. Do not wash porcelain products with water under 4°dH. Adjust the required water hardness by contacting the manufacturer of your dishwasher.
- If the water hardness is higher than 6°dH, it is recommended to use salt. If it is lower than this degree, salt is not recommended. With water hardness level above 6°dH, adjust salt usage level according to the hardness ranges specified by the manufacturer of your dishwasher."
- While soft water (0-3° dH) leads to corrosion (deterioration on the surface of the porcelain) problems, excessively hard water (6-10° dH) may leave residues that look like lime stains on the surface of porcelain products."
- Using the dishwasher rinse aid and detergent in accordance with the dosing and programs determined by the dishwasher manufacturer will extend the lifespan of porcelain products. Excessive use can shorten the lifespan of porcelain products.
- Do not wash your products below 122°F and above 158°F.
- Do not use metal utensils like metal whisks with porcelain.

## Porcelain (G. Benedikt & Patra)

- Dishwasher safe
- Should be washed within 45 minutes of removal from the table and pre-rinsed
- Avoid contact between dinnerware and metals
- Abrasive cleaning aids should not be used, i.e. scouring pads, steel wool, etc.
- Minimize handling to reduce glaze abrasion
- Do not stack more than 15" high
- Do not slide items across each other to reduce abrasions
- Be sure to rotate your stock to prevent uneven wear
- Only stack product that are designated stackable
- Microwave safe
- Oven safe up to 375°F, never expose to direct flame

# Care & Use

## Stoneware

MESA Stoneware products are food safe and use digital printing as the decoration technology.
The decoration is fused into the glazes during a single firing process, lasting 8 hours at 2140°F.

**Cleaning**

- Before usage, inspect all pieces and wash thoroughly before utilization.
- Do not use abrasive detergents and don't apply the detergents directly on the ceramic's surfaces.
- Use appropriate detergent quantities as well as detergents indicated for ceramics.
- Clean and remove leftovers after using, wash within 30-40 minutes of use.
- To avoid harsh metal marking use plastic/silicone spatulas on the pieces.
- When using a dishwasher, make sure to clean it frequently so there's no limescale build up that may harm ceramic pieces.
- Let the items fully dry before stacking or putting them away.
- Avoid pilling cutlery on top of the ceramics, especially when cleaning.

**Warming**

- Warm gradually & evenly.
- Avoid excess temperature variations such as taking the tableware from the fridge into the oven.

**Preventing Scratching & Metal Marking**

- During stacking process don't move around the pieces on each other.
- Avoid pressing lower grade cutlery on the surface, as it will cause metal marking damage.
- Do not slide, always lift products.
- Do not put hot wet dishes into contact with aluminium surfaces.
- Do not energetically place items on the sink as they can get scratched against each other.

**Storage**

Preferably store the pieces on safe spaces, either stainless steel or with a shelf mat, to avoid metal marking.

- Keep ceramics, glassware and metals separate.
- Do not store the pieces while wet.
- Do not stack items not designed for it and don't over stack so there's no scratching due to weight.
- Do not stack with products from other suppliers.

## Melamine

**DO**

- Melamine products are commercial dishwasher safe.
- Clean as soon as possible to help avoid staining and protein build-up.
- Immediately remove any damaged or chipped melamine products from operational use.
- Melamine can withstand dishwashing temperatures up to 248°F It should not exceed 160°F with food in it.

**DO NOT**

- Do not use in oven, microwaves or expose to direct flame, this can cause cracking and blistering from the heat.
- Do not use with heat lamps, conveyor belts, or plate warmers.
- The use of serrated knives is not recommended on melamine products.
- To avoid chipping and scratching, do not strike melamine products with or on any hard surface while attempting to remove excess food.

## Melamine (continued)

**DESTAINING**

- Periodically presoak melamine products before dishwashing to prevent staining and to maintain luster.
- For staining, use an oxygen-releasing compound such as Dip-It XP (ECOLAB).
- Sponges or woven plastic pads are recommended for cleaning.
- Do not use harsh or abrasive cleaners, steel wool, or metal pot scouring pads to remove food or stains

- **DISHWASHING**
  - Refer to a qualified technician to establish a maintenance schedule for your dishwashing system to ensure proper temperatures, chemical levels, and mineral content.
  - Only use sanitizers developed for commercial use.
  - To avoid chipping and scratching, do not overload your dishwasher rack.
  - Do not use chlorine bleach or chlorine-based sanitizing solutions when caring for melamine products.

**Recommended ECOLAB detergents:**

- Apex Power Plus (high-temp)
- Apex Ultra (hard water, high-temp)
- Fast Drying Rinse (ideal for plasticware)
- Solid Power XL (high-temp)
- Solid Ultra Klene Plus (low-temp)

**Recommended ECOLAB rinse agents:**

- Apex HD Rinse Aid (hard water, high-temp)
- Apex Rinse Additive (high-temp)
- Rinse Dry (high-temp)
- Solid Brilliance (high-temp)
- Ultra Dry (low temp)

**Recommended ECOLAB sanitizers:**

- Eco San (low temp)
- Ultra San (low temp)

## Stainless Steel Display Items

- Dishwasher safe.
- Do not use steel pads, wire brushes or scrapers. Do not use powders, or cleaners that contain chlorides, bromides or iodides.
- Always rinse thoroughly with fresh water after every cleaning operation
- Wipe unit dry with a soft cloth to remove water.
- Always rub in the direction of the steel grain for maximum effectiveness to avoid marring the surface.
- For smears or fingerprints, wipe with a clean slightly damp cloth. If that doesn't work, use a stainless-steel commercial cleaner.

## Bamboo

To best maintain product finish and condition:

- Do not place near an open flame or grille
- Products should be stored in a dry location at room temperature.
- Do not store near heat sources or in humid places.
- **This product should not be used in the dishwasher, oven or microwave.**
- Clean with a soft damp cloth or wash with hot soapy water, do not soak in water or wash with harsh detergents
- Sanitize using an antibacterial spray or food safe liquid sanitizer
- Dry promptly after cleaning, ensure products are dry before stacking
- In order to maintain product finish and condition, apply a light coat of mineral oil with a clean dry cloth, to prevent wood from drying and cracking.
- Do not leave in direct sunlight for long periods of time

## Polycarbonate (PC)

- Dishwasher & freezer safe
- Items must be carefully placed in the dishwasher while avoiding direct contact with other dishes and drinkware
- Do not wash with harsh abrasives such as brushes or scrubber pads as this may cause scratches; harsh chemicals including strong acid or alkali cleaning agents should also be avoided
- Use warm, soapy water or a neutral dishwashing liquid for cleaning
- Dry naturally or with a soft cloth after hand washing; we recommended using a microfiber cloth to preserve clarity
- Product can be used normally between temperatures of -30°C and 110°C (-22°F and 230°F)
- Avoid prolonged exposure to UV light, sunscreen or chlorine
- Not recommended for use in microwaves or high temperature sterilizers

# Care & Use

## Polywicker

- Dishwasher & freezer safe
- Items must be carefully placed in the dishwasher while avoiding direct contact with other dishes and drinkware
- Do not wash with harsh abrasives such as brushes or scrubber pads as this may cause scratches; harsh chemicals including strong acid or alkali cleaning agents should also be avoided
- Use warm, soapy water or a neutral dishwashing liquid for cleaning
- Do not use in oven, microwaves or expose to direct heat.

---

## Styrene-Acrylonitrile (SAN)

- Dishwasher safe & freezer safe
- Do not wash with harsh abrasives such as brushes or scrubber pads as this may cause scratches; harsh chemicals including strong acid or alkali cleaning agents should also be avoided
- Product can be used normally between temperatures of -20°C and 90°C (-4°F and 194°F)
- Do not use in oven, microwaves or expose to direct heat.

---

## Flatware

- Wash flatware before first use.
- Flatware should be washed separately from dinnerware.
- Remove any large food residue immediately after use to prevent staining.
- Wash as soon as possible to prevent pitting from acidic food deposits. Food residue can cause discoloration. A pre-soak in warm water is recommended to loosen food particles.
- Do not mix chrome-nickel 18/10 steel flatware with silver flatware in the flatware basket. Steel is harder than silver and can cause scratches.
- Use upright baskets to prevent scratching and to aid drying.
- Place flatware loosely in the basket to allow the water jets to reach all surfaces effectively.
- If using a low temperature dishwashing system, carefully follow the manufacturer's instructions to avoid staining or corrosion.
- Use a mild dishwasher detergent only along with the right rinse aid as recommended by the manufacturer. Make sure your cleaning agent is void of any abrasive or corrosive qualities.
- Check and adjust the rinse aid dose if stains or discolorations appear on your flatware.
- Easily remove stains or discolourations from stainless steel flatware with a stainless steel care product.
- Always use special salt to soften dishwasher water. Make sure no salt enters the rinse cycle. Rinse again if in doubt. A high concentration of salt can damage flatware.
- Ensure no rusty iron or steel objects are washed together with stainless steel flatware. Rinsing them together can transfer rust. Regularly check that the dishwasher basket is free from rust damage. Use a stainless steel cleaner to remove rust stains if necessary.
- Follow the instructions in your dishwasher manual.
- The flatware can dry spotlessly if the water from the last rinse drips off cleanly.
- Remove flatware promptly at the end of the wash cycle. If this isn't possible, leave the dishwasher door open for at least 5 - 10 minutes immediately after the end of the cycle to dry condensation and prevent watermarks.
- Dry manually (especially the blades) with a soft cloth if needed.
- Be sure flatware is completely dry before storing in a dry location away from the kitchen.

## Steak Knives

**WOOD HANDLED KNIVES**

- Handwashing is recommended for the best performance and optimal product life
- Wash knives with warm water and a mild detergent, rinse well and dry thoroughly
- Water and harsh detergents will dull the finish and dry out the handles
- It is recommended that the wooden handles be oiled as needed

**ABS (RESIN) HANDLED KNIVES**

- Low temp dishwasher safe
- Wash knives with warm water and a mild detergent,
- Rinse well and dry thoroughly
- Not recommended for high temp dishwashers that exceed 167°F / 75°C
- Knives should not be exposed to extreme temperature changes, which will cause the ABS handle material to crack over time

**STAINLESS STEEL KNIVES**

- Dishwasher safe
- Wash knives with warm water and a mild detergent, rinse well and dry thoroughly
- Use upright baskets to prevent scratching and to aid drying

**BLADE SHARPENING**

- Serrated blades cannot be sharpened
- Blades with no serrations can be sharpened as needed
- The frequency will depend on how often the knives are used and how well they are maintained

**THINGS TO AVOID**

- Avoid soaking knives; they should be cleaned immediately after use to prevent damage caused by certain foods
- Avoid using abrasive cleaners, scouring pads, oven cleaners or cleaners containing chlorine bleach or citric extracts
- Avoid cutting on hard surfaces such as stone, metal or glass
- Use upright baskets to prevent detergent damage to custom decorations, logos or brand marks.
