MIKASA®
HOSPITALITY

Mikasa has been synonymous with great design and a world leader in tabletop fashion for dinnerware, glassware, and decorative accessories **for over half a century**.

Founded by George Aratini in California in 1948, Mikasa became a name you would find in Bloomingdale's, Macy's, department stores, and similar retailers throughout the US.

Mikasa has always been a staple on wedding registries and family gatherings, and today we are the **number one importer of bone china**, bringing in 19 million pieces annually.

Mikasa Hospitality applies that legacy of expertise and design to the hospitality sector, offering tabletop collections that reflect the eclectic patterns and global tastes of modern dining—**assured by Mikasa's long-standing history and success**.

MIKASA HOSPITALITY

Mikasa was founded in California in 1948 and quickly became known for elegant design and lasting quality in dinnerware, glassware, and decorative accessories. By the late 20th century, it had become a household name, a fixture on wedding registries, and a trusted brand in leading department stores across the U.S. Building on this legacy, Mikasa launched Mikasa Hospitality to bring the same tradition of style, quality, and innovation to the professional foodservice world—serving hotels, restaurants, and resorts nationwide.

ARDACAM

Since 1989, Turkish brand ArdaCam has grown from a local glassmaker into a global leader in hospitality glassware. Family-owned and rooted in tradition, it blends craftsmanship with advanced technology to deliver innovative designs that meet the highest professional standards. Today, ArdaCam brings Turkish artistry to the world, creating glass dinnerware that creates memorable dining experiences across hotels and restaurants worldwide, while remaining true to its heritage.

CHIC

F·2·D

Over 30 years ago, Aerts NV began as a traditional tableware seller in Belgium. Over the decades, the company grew, eventually adding the brands Fine2Dine and Chic and changing their name to Fine Dining & Living. CHIC is refined and elegant, for those who value high-quality food and elevated presentations. Fine2Dine is for the on-trend chef. Constantly innovating to adapt to the latest fads in the culinary world, while delivering function and quality. Together, the two brands synergize beautifully, and new products are added throughout the year to stay atop current trends.

onis

royal leerdam

The historic Leerdam Crisal Glass has built a legacy of precision, durability, and artistry in European glassmaking since its founding in 1765. From this heritage came two brands: ONIS, the bold and contemporary choice for modern bars and restaurants, and Royal Leerdam, the refined Dutch tradition of timeless, versatile glassware. Together, they continue to shape hospitality with strength, style, and enduring quality, trusted by chefs, mixologists, and operators around the world.

SELTMANN WEIDEN

Made in Germany

With roots in early 20th-century Germany, Seltmann Weiden has earned its reputation as one of Europe's most respected porcelain makers. Family-owned and proudly "Made in Germany," it is known for precision, reliability, and innovation. In hospitality, Seltmann provides durable yet elegant porcelain that meets the demands of hotels, restaurants, and caterers worldwide, blending German engineering with timeless design for professional use.

SELECTCONCEPT SWEDEN

Introducing Select Concept; a Swedish brand that manufactures high-quality products for restaurants, hotels, & cafés with Swedish design in mind. Products are inspired by the four elements. Many items are individually made by hand, created in earthy, rustic colors. With mixed materials ranging from oak, metal, stoneware and aluminum. Together they create a rustic feeling and a nice mix-and-match.

BONE CHINA

At Mikasa Hospitality, we pride ourselves in being the foodservice industry's source for high-quality, beautiful bone china. Bone china is renowned for its delicate and translucent appearance. Our bone china has a minimum of 44% bone ash which enhances the whiteness and also lends it exceptional strength and a characteristic translucency. We are the largest importer of bone china in the United States, with an expansive offering designed specifically for professional use, a custom presentation can be tailored for each operator.

VEGAN BONE CHINA

Mikasa Hospitality is the foodservice industry's exclusive producer of Vegan Bone China™. Made using the same composition of minerals and clay of traditional bone china but without the bone ash, it's 100% vegan-friendly and bone-free. The resulting dinnerware provides the same elegance, translucency, and durability characteristics of its conventional counterpart. This ensures a luxurious dining experience without compromising one's commitment to a plant-based lifestyle.

FINE2DINE + MIKASA HOSPITALITY

Explore our exclusively curated assortment of F2D for design-driven, high-quality, and durable tableware for creative food presentations. Only available through Mikasa Hospitality, these memorable pieces are crafted with the latest innovations and glazing processes, which ensure no two pieces are exactly alike. They can be easily mixed and matched for the ultimate tabletop ambiance and culinary presentation.

Mikasa Hospitality porcelain dinnerware is known for its elegance, durability, and versatility. It is crafted from a fine clay called kaolin, fired at high temperatures to achieve a smooth and glossy finish. Our porcelain dinnerware is renowned for its ability to showcase intricate designs and patterns. Our porcelain is a practical choice, as it is resistant to scratches, stains, and chipping. It is commonly used for everyday as well as elevated dining occasions, adding a touch of sophistication to the experience.

STRUCTO

Strong structures and stackable shapes form a solid base for Structo. The straight forward robust design found its inspiration in the building and architecture industry. All products are made from durable porcelain based on a gray clay formula and finished with a **reactive glaze**, which results in beautiful soft shades of brown.

FINE2DINE ECOMADE

From Portugal comes a new kind of dinnerware. Fine2Dine EcoMade combines European craftsmanship, innovative technology, and a more responsible approach to production. Manufactured in a fully electric, zero-emission production facility powered by renewable energy. Solar-powered electric kilns fire the collection using locally sourced materials, eliminating fossil fuels from the firing process.

And sustainability doesn't come at the expense of performance. EcoMade is crafted from Natural Porcelain, a high-performance material with more than 20% alumina, fired at 2300°F to create a fully vitrified surface with 0% water absorption. The result is strong, durable, hygienic, and built for the demands of professional foodservice.

EcoMade combines artisanal appeal with technological innovation. Organic shapes, natural tones, and expressive reactive glazes create the look and character of handcrafted dinnerware, while the precision of modern production delivers consistency, availability, and reliability.

GOLDEN COLLECTION

The Golden Collection by Royal Leerdam blends sophistication and perfection for an indulgent experience. Clear glassware that redefines elegance and exquisite features. This collection includes 3 ranges:

Bonheur Optics, an exciting addition with a vintage-inspired design. From refreshing Gins to exotic Margaritas and classic Martinis, this range is the perfect choice for fancy restaurants and bars.

Carré Optics, a new line featuring two wine glasses, a flute, and a coupe, ready to grace every table.

And Régis, a standout in our Golden Collection, with a trio of wine and sparkling glasses, excellent for robust reds, light to medium-bodied whites, and dry, fruity sparklers.

18/10 FLATWARE

18/10 flatware and utensils are known for their high-quality construction and durability. The term "18/10" refers to the composition of the stainless steel used in these items, indicating that they are made with 18% chromium and 10% nickel. This combination results in a corrosion-resistant, long-lasting material ideal for professional use. We have a broad assortment of unique patterns and styles that are sleek and polished; adding some sparkle and shine to the table.

SELECT CONCEPT

Select Concept is a Swedish brand which manufactures high-quality products for restaurants, hotels & cafés with Swedish design in mind. Inspired by the four elements in nature, many items are individually made by hand, created in earthy rustic colors. Collections are made in oak, sheet metal, stoneware and aluminum. Together they create a rustic feeling and a nice mix-and-match.
We invite you to explore our Select Concept offering and build your ultimate buffet solution.

HAND-WASH RECOMMENDED

Mikasa Hospitality dinnerware will provide years of attractive durable use.

We offer the following recommendations:

Washing:

Use of a pre-soak solution can cause a chemical reaction with the china's glaze, which will etch the surface. Once etching occurs, the surface is more susceptible to glaze abrasion, metal marking and food staining.

Never use a scouring pad or powder to remove stains.

When placing dishes in a dish rack, separate china from stainless steel and glassware to avoid metal markings and excessive breakage of glassware.

Always wash soiled china within 30 - 45 minutes after use.

Utilize solid plastic racks for washing and storage.
Do not use plastic covered metal racks.

Always store china in active use away from or above the food preparation area.

Always pre-rinse with 110°- 120°F water.

Handling:

Always scrape and rack soiled china immediately after use.

Avoid stacking soiled china. If a backlog does occur, stack by item no more than 12 pieces high.

Never allow soiled dishes to stand overnight.

Stainless Steel Flatware Care and Usage

Your fine stainless flatware will give you years of service and will always look table ready when properly cared for. We offer the following recommendations:

DISHWASHER SAFE

Rinsing and Washing:

Remove all remnants of food from flatware immediately after use. Avoid using steel wool or metal scrapers.

Do not soak flatware for a prolonged period of time or overnight.

Keep knives separate with the blades pointed down.

Avoid low-temperature dishwashing.
It is not suited for stainless flatware.

Always make sure your flatware is clean and dry before storing to avoid corrosion and oxidation marks.

Handling:

Use of perforated cylinders in a portable rack reduce wear and tear on your flatware.

Sort your flatware tines, bowls and blades facing down in the cylinder when transporting, washing and holding in the same cylinder. This prevents contamination when the items are removed for setting the table.

Sort flatware tines, bowls and blades up when using a system where the flatware is transferred from a cleaning cylinder to a storage cylinder by inversion.

Glass Care and Usage

Mikasa Hospitality Glassware is made in one of the finest glass factories in Europe and will provide years of use if it is properly used, cleaned and stored. We offer the following recommendations:

DISHWASHER SAFE

Rinsing and Washing:

Do not twist the bowl in one direction and the stem in another. This will put pressure on the glass and may cause it to crack or break.

Do not store or dry your glassware upside down. This puts pressure on the delicate glass rim and can cause breakage.

Handling:

Avoid storing or keeping wine or other colored liquids in glass as it may stain.

Should stains develop, rinse with 1 part water and 1 part vinegar to gently remove stains.

To get the longest use out of your glassware have a large back up supply of glasses. This allows them to be in service and be cleaned and dried naturally before going back into service.

Recently washed glasses should have time to self cool to room temperature to prevent shocking the glass and causing it to crack.

Make sure you have the correct rack system in place to hold and store your fine glassware.

Do not grab glasses by several bowls at one time. This puts undo pressure on the glass and overtime can cause scratching and breakage.

Only glasses marketed as stacking should be stacked. You risk breakage if you stack non stackable glassware.

Avoid thermal shock by assuring that your glasses are at room temperature before adding ice to the glass.
